This chapter shall hereafter be known and cited as the "Sign Local Law of the Village of Brewster."

The Village of Brewster recognizes and supports the right of all citizens to communicate using signs. It is the intent of these regulations to maintain and enhance the quality of life within the Village of Brewster by permitting orderly signage and minimizing visual clutter, while continuing to recognize the rights of business owners as well as all members of the public.

§ 199-3. Compliance required.

§ 199-16. General provisions.

- A. No sign or other advertising structure as regulated by this chapter shall be erected at the intersection of any streets in such a manner as to obstruct free and clear vision; or at any location where by reason of the position, shape or color it may interfere with, obstruct the view of, or be confused with any authorized traffic sign, signal or device, or which makes use of the words "STOP," "LOOK," "DRIVE-IN," "DANGER," or any other word, phrase, symbol or character in such manner as to interfere with, mislead or confuse traffic. This shall not prohibit signs in private parking lots as directed by the Planning Board.
- B. No sign shall be erected, relocated or maintained so as to prevent free ingress to or egress from any door, window or fire escape.
- C. Sign lighting. Illuminated signs may be directly or indirectly lighted in accordance with this Chapter, provided that they comply with the following standards:
 - 1. Illumination of directly illuminated signs shall be of the diffused lighting type.
 - 2. Indirectly illuminated signs with external spot or flood lighting must be arranged such that the light source is directed away from passersby. The light source must be directed against the sign such that it does not shine into adjacent property or cause glare for motorists and pedestrians.
 - 3. Noticeable raceways and transformers for individual letters are prohibited. Sign installation details shall indicate the location of the transformer and other mechanical equipment.
 - 4. Floodlights or spotlights used for the illumination of signs, whether such lights are attached to or separate from the building, shall not project light beyond the sign. Gooseneck reflectors and lights shall be

permitted, provided that the reflectors shall be provided with proper glass lenses concentrating the illumination upon the area of the sign so as to prevent glare upon the street or adjacent property.

5. Flashing signs and neon signs are prohibited.

- D. All lighting in connection with signs shall be extinguished by 11:00 p.m. prevailing time, or at the close of the business or activity services by said signs or lights, whichever is later; provided, however, that the Code Enforcement Officer may authorize exterior lighting at additional hours to assist in the protection of properties which otherwise may be subject to this section when so recommended by the Village of Brewster Police Department.
- E. Moving, revolving or animated signs, or signs embellished by balloons, streamers or other distractive adornments are prohibited.

§ 199-17. Construction requirements.

- A. Material. Signs shall be constructed of quality materials in accordance with this Chapter and completed with durable finishes.
- B. Codes. All signs shall conform to the latest edition of the applicable building and electrical codes.
- C. Fastenings. All signs must remain safe and secure during the period of use. All parts of the signs, including bolts and cables, shall remain painted, and free of corrosion.
- D. Fire escapes. A sign may not obstruct a fire escape.
- E. Lighting. External lighting shall be shielded from view and shall be focused upon the sign to avoid stray lighting. Flashing, rotating, and intermittent lighting are prohibited.
- F. Proximity to electrical conductors. Signs and all supporting structures shall be no closer to electrical utilities than is permitted by applicable codes. No sign, including cables and supports, shall, in any event, be within six feet of any electrical conductor, electrical light pole, electric street lamp, traffic light, or other public utility pole.
- G. Sanitation. Property surrounding any ground sign shall be maintained in a clean and sanitary condition. It shall be free from weeds, rubbish, and flammable material.
- H. Landscaping. The area beneath and around a monument sign shall be landscaped with plants, ground cover and materials so as to complement the site and integrate the sign with buildings, parking areas, surrounding vegetation and natural features of the landscape.
- I. Responsibility for compliance. The owner of the parcel on which a sign is placed and the tenant are each fully responsible for the condition and the maintenance of the sign, and the area

around the sign.
